External Email

Hello,

I am pleased to inform you that your MathWorks license has

been created. Please share this information with your team members.

License Number: 41151157

Activation Key: 13152-89229-12609-59105-24055

To use MATLAB software you need to associate your MathWorks account with a license, download the software, install the software, and finally activate the software. Please forward this email to additional team members and ask them to follow the same process as above.

Associate to License

If you have not yet created a MathWorks account, you can do so here: <https://www.mathworks.com/mwaccount/register>

Once you have a MathWorks account, you need to associate it with a license. Your activation key is included in this email and is required to complete the association process.

Instructions for associating with a license are available here: <http://www.mathworks.com/matlabcentral/answers/102871>

Download and Install

Once you are associated with a license you need to download the software. Download instructions are available here:

<http://www.mathworks.com/matlabcentral/answers/98268>

The installation will begin as soon as the download is complete.

Activate your Software

Once the software is installed MATLAB will attempt to activate itself. You will be required to enter your MathWorks account credentials again for activation. If the software does not automatically attempt to activate, you will need to launch the activation client:

<http://www.mathworks.com/matlabcentral/answers/99457-how-do-i-activate-matlab>

In some setups, such as one where a firewall is in place or a

proxy is filtering all network activity, you may need to activate MATLAB manually. Instructions for manual activation can be found here:

<http://www.mathworks.com/matlabcentral/answers/105854>

To get MathWorks' logos, the .zip file can be downloaded here:

<https://www.mathworks.com/content/dam/mathworks/mathworks-dot-com/images/company/brandguide/download/logos/mathworks-logos.zip>

The extent of the permitted use of MathWorks' logo is limited. If you intend to use the logo in any other way, please contact us again for approval. If you haven't already, please consult the Usage Guidelines:

<https://www.mathworks.com/brand.html#logo>
